Technical SEO

Check	Status	Impact	Details
HTTPS / SSL Certificate	PASS	High	Website is secure on HTTPS.
Page Load Speed	PASS	High	Loaded in 0.41s — excellent!
Robots.txt	PASS	Medium	robots.txt is available and accessible.
Canonical Tag	PASS	High	Canonical: https://www.craftbymanoj.in/
Mobile Viewport Meta	PASS	High	Viewport: width=device-width, initial-scale=1.0
URL Structure	PASS	Medium	URL is clean, lowercase and SEO-friendly.
HTTP Status Code	PASS	High	Status 200 OK.
Compression (GZIP/Brotli)	PASS	Medium	Compression enabled: gzip
Cache-Control Header	PASS	Medium	Cache-Control: public,max-age=300
X-Robots-Tag Header	PASS	Low	No X-Robots-Tag header (default: indexable).

On-Page SEO

Check	Status	Impact	Details
Title Tag	FAIL	High	Title is 73 chars — too long (ideal: 50-60).
Meta Description	PASS	High	Description (160 chars): "Manoj Inamanamelluri is a Hyderabad-based full-stack developer and UI/UX designe…"
H1 Heading Tag	PASS	High	One H1: "Full-Stack Developer& UI/UX DesignerinHyderabad"
Heading Hierarchy (H2-H4)	PASS	Medium	H2: 5, H3: 5, H4: 0 — good content structure.
Image Alt Attributes	FAIL	Medium	35/36 images missing alt text — SEO issue!
Image Dimensions Declared	WARN	Medium	28 image(s) missing width/height — causes layout shift (CLS).

Content Length	PASS	Medium	~690 words — good content length.
Internal Linking	PASS	Medium	13 internal, 8 external links (0 nofollow).
Broken External Links	WARN	Medium	6 broken external link(s) (checked first 8).
Keyword-Rich Title	PASS	High	Title contains multiple descriptive keywords.

Social & Meta Tags

Check	Status	Impact	Details
Open Graph Tags	PASS	Medium	All 4 OG tags present. og:type="website"
OG Image	PASS	Low	OG image set: https://www.craftbymanoj.in/assets/og-image.png. Recommended: 1200×630px.
Twitter Card Tags	PASS	Low	Twitter Card: summary_large_image. Image: ✓
HTML Language Attribute	PASS	Medium	lang="en-IN" set.
Hreflang Tags	WARN	Low	No hreflang tags. Add if you have multilingual content.
Favicon	PASS	Low	Favicon set: assets/logo.svg

Content Analysis

Check	Status	Impact	Details
Mixed Content	PASS	Medium	No HTTP resources on HTTPS page — good!
Robots Meta Tag	PASS	Medium	Robots: "index, follow, max-image-preview:large"
Total Page Size	PASS	Medium	Page weight: 462.3 KB (HTML+CSS+JS+images) — excellent!
Paragraph Structure	PASS	Low	28 paragraphs — well structured.
Image Lazy Loading	WARN	Low	No lazy loading on images — add loading="lazy" for performance.

Sitemap Analysis — General / Corporate Website

Check	Status	Impact	Details
Main XML Sitemap	PASS	High	Found at /sitemap.xml — 8 URLs indexed. Required XML sitemap listing all pages
Image Sitemap	WARN	Low	Optional — not found. Optional — for image-heavy sites
Robots.txt Sitemap Declaration	PASS	Medium	1 sitemap(s) declared: https://www.craftbymanoj.in/sitemap.xml

Schema Validation

Check	Status	Impact	Details
Schema: Person	PASS	Low	All required and recommended fields present — schema fully optimized.
Schema: WebSite	WARN	Medium	All required fields ✓. 2 recommended field(s) missing: potentialAction, sameAs.

Schema: ProfessionalService	PASS	Low	ProfessionalService schema found. No strict validation rules defined for this type.
Schema: FAQPage	PASS	Low	All required and recommended fields present — schema fully optimized.
Schema Summary	PASS	Low	4 schema type(s) found: Person, ProfessionalService, WebSite, FAQPage

Developer & Performance

Check	Status	Impact	Details
Resource Hints (preload)	PASS	Medium	2 preload tag(s) found — good for critical assets.
DNS-Prefetch / Preconnect	PASS	Low	2 hint(s) found — good for third-party domains.
Script Loading (defer/async)	FAIL	High	4 render-blocking script(s) — hurts Core Web Vitals.
Image Lazy Loading	FAIL	Medium	Only 0% images use lazy loading — hurts LCP/performance.
Modern Image Formats (WebP/AVIF)	FAIL	Medium	No WebP/AVIF images detected — serving unoptimized formats.
HTTP Security Headers	FAIL	High	Only 0/6 security headers — site vulnerable.
Inline Scripts & Styles	WARN	Low	5 inline script(s), 0 inline style block(s).
Font Display Strategy	PASS	Medium	font-display property detected — prevents invisible text during load.
Third-Party Scripts	WARN	Medium	4 third-party scripts — each adds latency.
Hreflang (International SEO)	WARN	Low	No hreflang tags. Add if site targets multiple countries/languages.
HTTP/2 or HTTP/3	WARN	High	HTTP/2 could not be confirmed. Verify server supports HTTP/2.
Charset & Language Declaration	PASS	Medium	charset declared, lang="en-IN".

Security Audit

Check	Status	Impact	Details
HTTP→HTTPS Redirect	PASS	High	HTTP requests correctly redirect to HTTPS.
HSTS Header	WARN	High	Missing Strict-Transport-Security header — browsers may fall back to HTTP.
Clickjacking Protection (X-Frame-Options)	WARN	High	Missing X-Frame-Options — site can be embedded in iframes (clickjacking risk).
MIME Sniffing Protection (X-Content-Type-Options)	WARN	Medium	Missing X-Content-Type-Options: nosniff — browser may guess content types (MIME sniffing attack).
Content Security Policy (CSP)	WARN	High	No Content-Security-Policy header — XSS attacks are harder to prevent without CSP.
XSS Protection Header	WARN	Medium	Missing X-XSS-Protection header — older browsers lack built-in XSS filter.
Referrer Policy	WARN	Medium	No Referrer-Policy — full URL may leak to third-party sites when users click links.
Server Header Disclosure	PASS	Low	Server: AmazonS3 — no version info leaked.
Mixed Content	PASS	High	No HTTP resources found on HTTPS page — all assets are secure.

Permissions Policy	WARN	Low	No Permissions-Policy header — browser features (camera, microphone, geolocation) are unrestricted.
Directory Browsing / Listing	PASS	High	Directory listing is disabled — file structure is not exposed.
Sensitive File Exposure	PASS	High	No sensitive files (.env, .git, wp-config, backup.sql etc.) found publicly accessible.
Open Redirect Vulnerability	PASS	High	No open redirect detected on common URL parameters (?url=, ?redirect=, ?next= etc.).
SQL Error Leakage	PASS	High	No SQL error messages found in page — database errors are not exposed.
URL Parameter Injection Risk	PASS	Medium	No high-risk URL parameters detected in the audited URL.
Admin Panel Exposure	PASS	High	No publicly accessible admin panels found on common paths.

Priority Fixes (Errors)

#	Issue	Details
1	Title Tag	Title is 73 chars — too long (ideal: 50-60).
2	Image Alt Attributes	35/36 images missing alt text — SEO issue!
3	Script Loading (defer/async)	4 render-blocking script(s) — hurts Core Web Vitals.
4	Image Lazy Loading	Only 0% images use lazy loading — hurts LCP/performance.
5	Modern Image Formats (WebP/AVIF)	No WebP/AVIF images detected — serving unoptimized formats.
6	HTTP Security Headers	Only 0/6 security headers — site vulnerable.
